

Developer Profile

Technical Profile

I am a Software Engineer specializing in backend development and Artificial Intelligence applications and I have 7 years of experience on this full stack . My primary programming language is **Python**, and I also have experience with **PHP, JavaScript, SQL, Django, Laravel, MySQL, PostgreSQL, Git, and REST APIs**.

I enjoy building practical software solutions and continuously learning modern technologies related to AI and Machine Learning.

Recent Development

Sheryar Awan independently developed **Local RAG Assistant Version 1.0** using **Python, Ollama, Phi-3, nomic-embed-text, and ChromaDB**. The application performs document ingestion, semantic search, vector retrieval, and generates answers from locally stored documents without requiring an internet connection.
